Discussion:

Briefing 0900 CDT NPOL/D3R crews arrive on site in later morning. Solar cals, scan testing, data and product testing/transmission. Full-up ops as appropriate. Sample potential event in afternoon/evening. Disdrometer/gauge ops ongoing. X-Pol deployment (first radar) to Turkey Basin. Officially begin intensive field phase of IFloodS at midnight on 5/1. 24/7 coverage at radars thereafter.
